

Work-in-Progress Quantitative Skills Course

Katrina Brock & Brendan Barrett

2026-06-01

Table of contents

Preface	3
1 Full book outline	4
1.1 -2.1 Frequentist Statistics Review	4
1.2 -2.2 Working with Data in R	6
1.3 -1.1 Test Statistics & P Values	6
1.4 1.1 Command Line I - Working with Files	6
1.5 1.2 Data Structures	6
1.6 2.1 Bayesian Approach to Modeling Hypotheses	6
1.7 2.2 Control Flow, Functions and Loops	6
1.8 3.1 Two Sample Poisson Comparison	6
1.9 3.2 Debugging Tools	6
1.10 4.1 Univariate Linear Models	6
1.11 4.2 Writing Readable Code	6
1.12 5.1 Causal Inference, Study Design	6
1.13 5.2 Project Structure	6
1.14 6.1 Non Gaussian (GLMM)	6
1.15 6.2 Software Valication	6
1.16 7.1 Heirarchical Models	6
1.17 7.2 Git I (Tracking Your Changes)	6
1.18 8.1 ZIPs, Info Criteria	6
1.19 8.2 Stats Other Paths	6
1.20 X.1 Unsupervised Models	6
1.21 X.2 Stats - Other Paths	6
References	7

Preface

This is a Quarto book.

To learn more about Quarto books visit <https://quarto.org/docs/books>.

1 Full book outline

When content is added, each header should become its own document

1.1 -2.1 Frequentist Statistics Review

Focus on Bernoulli

1.2 -2.2 Working with Data in R

1.3 -1.1 Test Statistics & P Values

1.4 1.1 Command Line I - Working with Files

1.5 1.2 Data Structures

1.6 2.1 Bayesian Approach to Modeling Hypotheses

1.7 2.2 Control Flow, Functions and Loops

1.8 3.1 Two Sample Poisson Comparison

1.9 3.2 Debugging Tools

1.10 4.1 Univariate Linear Models

1.11 4.2 Writing Readable Code

1.12 5.1 Causal Inference, Study Design

1.13 5.2 Project Structure

1.14 6.1 Non Gaussian (GLMM)

1.15 6.2 Software Valication

1.16 7.1 Heirarchical Models

1.17 7.2 Git I (Tracking Your Changes)

1.18 8.1 ZIPs, Info Criteria

1.19 8.2 Stats Other Paths

1.20 X.1 Unsupervised Models

1.21 X.2 Stats - Other Paths

References
